

## **Website accessibility**

This accessibility statement pertains to the website of the TUBE-project (Transport derived Ultrafines and the Brain Effects), funded by the European Union's Horizon 2020 research and innovation programme under grant agreement No 814978, coordinated by the University of Eastern Finland, available at <https://www.tube-project.eu/>, and it has been drawn up on 8 August 2021.

We have assessed the accessibility of the service ourselves.

The tube-project.eu website was published in 2019. The latest major website redesign was completed by the University of Eastern Finland in April 2020. The accessibility requirements have guided the layout design of, and content production for, our new website.

Websites and mobile applications and related content of the University of Eastern Finland should be easily accessible. Accessibility in the digital environment means that as many different people as possible can access online services regardless of user, situational or technological differences. Accessibility requirements are based on the Digital Services Act and the EU Web Accessibility Directive.

### **Accessibility standards applied and conformance status of the digital service**

Partially compliant with the accessibility requirements. Some parts of the content do not fully conform to the accessibility standard.

### **Non-compliant content**

Some of the files linked to our website (e.g. doc, pdf) do not comply with the accessibility requirements, as this is an international project and receives input from foreign project partners, as required by the funding organization.

### **Not covered by legislation:**

- Video and audio recordings which have been published before 23 September 2020.
- Live video streams and audio broadcasts which are not recorded for storing or republishing.

We are committed to enhancing the accessibility of our digital services, and we are continuously working to improve it. For users to whom our digital services remain inaccessible, we offer special support. If this is the case, please contact us at [viestinta@uef.fi](mailto:viestinta@uef.fi).

### **Did you discover an accessibility issue in our digital service?**

Please use this form to leave feedback regarding the TUBE-project website or about website accessibility. You can give feedback relating to accessibility [via this electronic form](#) or by sending an email to [viestinta@uef.fi](mailto:viestinta@uef.fi). Please let us know, and we'll do our best to fix the issue!

If you discover an accessibility issue on our website, please give us, i.e. the website administrators, feedback first or by sending email to [tutkimuspalvelut@uef.fi](mailto:tutkimuspalvelut@uef.fi). Please note that it may take up to 14 days to reply to your feedback. If you are not satisfied with our response or if you receive no response at all within two weeks, you can lodge a complaint with the Regional State Administrative Agency for Southern Finland. The website of the Regional State Administrative Agency for Southern Finland explains, in detail, how you can lodge a complaint and how the matter will be processed.
