This project has
received funding
from the European
Union's Horizon 2020
research and innovation programme
under grant agreement No 814978.

PROGRAMME

WEDNESDAY 1.6.2022

09.00–09.10 Welcome & Introduction to Wednesday's programme

Assoc. prof. Pasi Jalava, TUBE Coordinator, University of Eastern Finland & Dr. Jan Topinka UEM-AVCR

09.10–09.40 Traffic's emission particles and their effects on human health (Introduction to the TUBE project)

Assoc. prof. Pasi Jalava, University of Eastern Finland

09.40–10.10 Emission and environments (how vehicle technologies affect ultrafine particles, concentrations in real urban, environments, from ambient conditions – TUBE campaigns)

Prof. Topi Rönkkö, Tampere University & Dr. Päivi Aakko-Saksa, VTT

10.10–10.40 Impact on brain health and AD

Assoc. prof. Katja Kanninen, University of Eastern Finland
Doctoral student Riikka Lampinen, University of Eastern Finland

10.40–11.00 Coffee break

11.00–11.30 Respiratory & neurological models, in vivo- and in vitro studies, human epidemiological studies

Assoc. prof. Anna Oudin, Umeå University

11.30–12.00 Expert view

Sirpa Pietikäinen, Member of European Parliament

12.00–12.30 Expert view

Maurizio Maggiore, Senior Expert at European Commission, Directorate General for Research and Innovation, Surface Transport Unit

12.30–13.30 Lunch

13.40–13.45 Short introduction to afternoon

13.45–14.45 Discussion and feedback

Looking ahead – future behavior in research – in vitro studies versus in vivo

14.45–15.15 Press conference

15.15–15.45 Farewell coffee

19.00 TUBE Working Dinner

Altany Kampa Restaurant (altanykampa.cz)
